NAME

SYMBOL

Lloyd was born to a cook and baker in a backwards town in the the Southern part of Daelig. There he lived, taking up his fathers profession as a cook, and eventually getting married to a " firebrand gal" by the name of Lillian, who stoked a desire for a more fulfilling life - beyond that of a simple chef - and instilled a strong sense of what is right and wrong in the world. The growing malcontent with their lot in life caused the young married couple to join the revolution. After rising through the ranks via skill and daring, the couple earned the name "Stormrunner" after a successful raid on a government caravan during a terrible thunderstorm. Due to reasons they haven't shared with anyone, the Stormrunners left the rebellion and cast their support with the government, and joined the Daelig army. Eventually, their prowess was noticed and they became Gunslingers, just in time for the great war. After two years of war, Lillian was nearly crippled, and retired to a village far away from the fighting, with a promise that they would finally settle down as soon as the war was over. Now, after three more years of brutal war (and as many visits to his wife as he could spare), Lloyd has once again taken up his rifle, for hopefully the last time, before he can finally go home to his beloved.
